**Joyson and PAG Fund KSS to Acquire Air-Bag Maker Takata in Asset Deal
Newly Merged Company Branded Joyson Safety Systems Based in Michigan**

Auburn Hills, MI USA – April 11, 2018 – A consortium led by its parent Ningbo Joyson Electronic Corporation (“Joyson Electronics”) and PAG, an Asia based private equity firm and Future Industry Investment Fund (“SDIC”) provided the funding to Key Safety Systems (“KSS”) to successfully complete the acquisition of substantially all of the global assets of Japan-based Takata Corporation (“Takata”), a leading global supplier of vehicle safety systems including seat belts, airbags, steering wheels and child seats as well as other automotive products, out of cross-border bankruptcies in the United States and Japan. Takata’s liabilities associated with the recall of phase-stabilized ammonium nitrate (PSAN) airbag inflators and other liabilities were not acquired by KSS. KSS, headquartered in Michigan, USA, is a global leader in mobility safety.

The combined company will be rebranded Joyson Safety Systems (www.joysonsafety.com) and be headquartered in Auburn Hills, Michigan, USA.

“Joyson Safety Systems integrates the world-class assets and worldwide operations of KSS and Takata under one common organization and one shared mission to provide the best quality safety solutions to our customers,” said Mr. Jeff Wang, Executive Chairman, Joyson Safety Systems. “We are excited about the opportunities created through this combination, and we are committed to providing safety solutions of the highest quality and reliability to drive the next generations of mobility.”

Joyson Safety Systems is a global leader in mobility safety, generating annual sales of about \$7 billion. The company operates in 25 countries with more than 50,000 employees providing life-saving technologies to both automotive and non-automotive markets.

The \$1.588 billion transaction was funded using a combination of equity and debt. Ningbo Joyson Electronic Corporation (SHA: 600699, “Joyson Electronics”) is the company’s majority equity holder. PAG Asia Capital, the lead international private equity partner in the transaction, is the second-largest shareholder and will actively support the integration of Joyson Safety Systems. Future Industry Investment Fund also provided equity to support the transaction.

PAG is a leading private equity firm based in Asia and manages over \$20 billion in capital. The portfolio companies of PAG Asia Capital, PAG’s buyout arm, include some of the best global brands based in the United States, such as Cushman & Wakefield and Lexmark International.

“PAG has a long track record of working with our partners to build successful companies,” said Weijian Shan, Chairman and CEO of PAG. “The combination of KSS and Takata creates a best-in-class business with strong growth potential. We’re committed to working with Joyson Safety Systems to build an industry-leading company.”
